We stand up for print

This are your content and reach experts

Print industry professionals and managers have trusted the publications and services of Deutscher Drucker since as far back as 1894.

Our printed and digital products, Deutscher Drucker and print.de, have the widest reach in the industry and are dedicated to covering the key themes for professional print production.

Our editors are out and out theme champions in their specialist fields and in many cases they are viewed as real influencers. Over 250 lectures given and events hosted speak for themselves. Five industry juries also benefit from the expertise of our editorial team.

In order to identify trends, to pick them up and to evaluate their relevance for the printing industry, one needs expertise, sound understanding and an emotional commitment to the printing industry. These are things that our many years in the industry mean that we are able to offer. Every year our editors visit nearly 100 prepress shops, printers and finishers. Our editors know what is going on in the industry.

Our news channels on Xing, X and Facebook also keep the industry constantly up to date.

A mass of e-dossiers in our online shop

“This is where the industry’s movers and shakers gather their information!”

Bernhard Niemela, CEO

Present your highlights at the successful webinar series

Address your target group directly with print.de and Deutscher Drucker.

We define our audience in order to deliver The information that's needed to the target group that needs it

Before one of our editors starts to write a piece he or she thinks about which of our target groups the content is really suitable for. Is the information he or she is about to impart of more interest to the managing director or the technical management of a printer? Is it content that meets a buyer's need for information or a printer's?

In other words: our editors don't just fill pages. They precisely tailor their content for different target groups. Target groups that we, on the editorial team, envisage as 'personas'.

Our model is very simple. We interviewed a range of people in the printing industry by telephone to explore what their day-to-day work consists of. We wanted to understand them better, to find out when they need information, and in what form they want to use it. Using our personas and for every kind of content, we now define which channels will be used to deliver what content in what form and for which target group. As a result, we reach our target groups – your customers – even more effectively.

What's more, when we talk about 'content', it can take many different forms. Of course, as 'printers' we always think of 'print'—but not just print. Sometimes our content might take the form of a long background article in our magazine, Deutscher Drucker, sometimes the form of a print.de newsletter.

We also understand that sometimes a video says more than a thousand words. In a multichannel age we serve our personas wherever they may be found. One may opt for print, another for digital. We understand and write for both. SE optimized texts are of course a must because we're also keen to get to know new personas. You're probably the same.

“With our touchpoints we offer the highest visibility and reach”

Jochen Kristek, Leitung Key Account und Sales

Newsletter

The print.de newsletter is mailed out daily on the 5 working days of the week and reaches up to 7,500 subscribers per issue (as of 09/2024)

For additional advertising options including the stand alone newsletter, advertorials/sponsored posts and lead generation go to our online media information website.

This page is just a brief summary of our online advertising options. The full online media information can be

Downloaded from

<https://media.print.de/#downloads>

1 | An «advertisement purchase order» in the sense intended in the following General Terms of Business is a contract for the publication – in a printed work, and for purposes of circulation – of one or more advertisements issued by an advertiser or other space buyer.

2 | In case of doubt, it is to be requested that advertisements be published within a year of the contract's being concluded. If a concluded contract grants the right to request the publication of individual advertisements, the purchase order is to be carried out within a year of the publication of the first advertisement provided that the request for the publication of the first advertisement, and its actual publication, both take place within the period stated in the preceding sentence.

3 | The advertising rates result from that publisher's list of advertising rates which is applicable when the contract is concluded. If the advertising rate changes after the contract has been concluded, the publisher is entitled to calculate the rate in accordance with that list of rates which is applicable at the time of publication; this does not apply to business relations with non-merchants, provided that no more than 4 months have passed between the contract's conclusion and the time of publication. Advertising agencies and advertising mediators are prohibited from passing on to their clients, in whole or in part, the commission amounts granted by the publisher.

4 | If, for reasons not imputable to the publisher, a purchase order is not carried out, the client, notwithstanding any other legal obligations, is to refund to the publisher the difference between the discount granted and the discount which accords with the actual purchase, if – by reason of force majeure (e.g. war, mobilization, labour disputes or other unpredictable events) – the magazine cannot be published at all, cannot be published to its full extent or cannot be published at the proper time, the client cannot make any claims on the basis of this.

5 | In calculating the amounts purchased, millimetres of depth of lines of text are, in accordance with the rate, converted into millimetres of advertisement depth.

6 | Purchase orders for advertisements and inserts which it is stated are to be published exclusively in particular issues, particular editions or particular places in the publication must – if the purchase order cannot be carried out in this way – be received by the publisher early enough for it to be possible, before the copy date, to inform the client accordingly. Classified advertisements are printed in the relevant section of the classified advertisements without this having to be expressly agreed.

7 | Facing matter is any advertisements at least two pages of which adjoin the editorial text and do not adjoin other advertisements. The publisher is entitled, by using the word „advertisement“ (in German: „Anzeige“), to make clearly recognizable any advertisements which, due to their editorial design, are not recognizable as advertisements.

8 | The publisher reserves the right – in accordance with uniform, objectively justified principles – to reject, because of the technical form or the origin of the orders, firstly orders for advertisements, including requests for individual advertisements within a concluded contract, and secondly orders for inserts; the same applies if the content violates laws or governmental regulations or if it is unreasonable to expect the publisher to publish the material. This also applies to orders which are placed at business offices, at postal offices or with sales representatives. Orders for inserts are only binding upon the publisher after a sample of the insert has been received and the insert approved. Inserts whose format or presentation arouses in the reader the impression of being an integral part of the newspaper or magazine or which contain third-party advertisements are not accepted. The client will be informed immediately if an order is rejected.

9 | The purchaser is responsible for delivering in good time either the text

of the advertisement and proper documentation, or the inserts. Within the possibilities granted by the copy, the publisher will ensure the print quality customary for the title booked.

10 | If the advertisement is printed wholly or partially illegibly or incorrectly, or is printed incompletely, the client has a claim either for a reduction in the rate to the extent that the purpose of the advertisement was impaired, or for a proper replacement advertisement, if the publisher allows to expire a period which was stipulated for him for the publication of the advertisement, or if the replacement advertisement is itself not in proper order, the client has a right to a rate reduction or to a cancellation of the order.

No damages claims are possible which arise from positive infringement of demands, from negligence at the time of the contract's conclusion, or from tort – especially when the order is placed by telephone. Damages claims which arise because the work cannot be performed or because there is delay are limited to compensating the foreseeable damage and, where their amount is concerned, to the payment to be made for the advertisement or insert in question. This does not apply to intent or gross negligence on the part of the publisher, the publisher's legal representative or the publisher's agents. Any liability of the publisher's for damage resulting from the absence of characteristics regarding which an assurance was given remains unaffected.

In commercial dealings, the publisher is, in addition, not liable for gross negligence on the part of agents; in other cases, liability is towards business people for gross negligence is, where its extent is concerned, limited to the predictable damage and is no higher than the relevant payment for the advertisement.

Any claims must – except in the case of deficiencies which are not evident – be asserted within four weeks after the invoice and voucher are received.

11 | Proof sheets will only be supplied if expressly requested. The client will bear the responsibility for the correctness of the proof sheets which have been sent back. The publisher will take into account all those corrections of errors of which he – within the time period stipulated in connection with the sending of the proof sheet – is informed.

12 | If there are no particular regulations regarding size, the calculation of the rate will be based on what is the actual depth and is the customary depth for the type of advertisement.

13 | If the client does not make an advance payment, the invoice will be sent immediately, but if possible 14 days after the advertisement is published. The invoice is to be paid within the time period which is evident from the list of advertising rates and begins from the time when the invoice is received, provided that another time period for payment or another advance payment has not been agreed upon in the individual case. Any discounts for early payment are granted in accordance with the list of rates.

14 | If there is delay in payment, the publisher will, while reserving further rights, charge interest on arrears in the amount of 1% above the prevailing EZB base interest rate. If there is delay in payment, the publisher can postpone any further carrying-out of the current purchase order until payment is made and can require an advance payment for the remaining advertisements. If well-founded doubts exist as to the client's solvency, the publisher is entitled, even while a contract concluded for an advertisement is still running, and without taking into account any originally agreed due date, to make the publication of further advertisements dependent on the advance payment of the amount and on the payment of outstanding invoice amounts.

15 | The publisher will, upon request, supply a voucher copy along with the

invoice. Excerpts from advertisements, voucher pages, or complete voucher issues, will – depending on the type and scope of the purchase order for the advertisement – be supplied. If a voucher can no longer be obtained, it will be replaced by a legally binding certificate issued by the publisher and concerning the publication and circulation of the advertisement.

16 | The client is to bear the cost of the production of copy and drawings which have been ordered, and also of any such considerable alterations to originally agreed methods of working as are requested by or are imputable to the client.

17 | If the print run is reduced and a contract for more than one advertisement has been concluded, a claim for a reduction in the rate can be derived if, on the overall average of the year of insertion commencing with the first advertisement, that average print run stated either in the list of rates or in another way, or else – if no print run is stated – the average number of copies sold (in the case of trade magazines, it may be necessary to take instead the average number of copies actually circulated), in the previous calendar year is more than that in the year of insertion. A reduction in the print run is only a defect justifying a rate reduction if it amounts to: 20% for a print run of up to 50,000 copies

However, claims for a reduction in the rate are not possible if the publisher has informed the client in good time of the lowering of the print run, while offering the client the possibility of withdrawing from the contract.

18 | In box-numbered advertisements, the publisher will apply to the presentation and prompt forwarding of the offers received, the care used by a proper businessman. Registered letters and express-delivery letters arriving in response to box-numbered advertisements will be forwarded only by normal post.

Items received in response to box-numbered advertisements will be kept for four weeks. Correspondence arising which has not been picked up during this period will be destroyed. The publisher will send back valuable documents, but without being obliged to do so.

In the client's interests and for the client's protection, the publisher, in order to rule out any abuse, reserves the right to open for examination purposes the offers received. The publisher is not obliged to forward any business recommendation or any offers to mediate.

19 | Copy will only be sent back to the client if this is specially requested. The obligation to preserve the copy ceases three months after the purchase order has taken its course.

20 | Credit items relating to discounts are deducted in connection with the first advertisement in the series. Additional charges regarding discounts are in principle not imposed until the end of the year of insertion.

21 | Confirmations of placings apply only with reservation and can be modified for technical reasons. The publisher cannot be made liable in such cases.

22 | The place of performance is the head office of the publisher. In commercial dealings with business people and with artificial persons in public law, and in the case of separate estates in public law, the head office of the publisher is the place of jurisdiction in the event of any claims. If claims filed by the publisher are not asserted by means of action on a debt, the place of jurisdiction is, in the case of non-merchants, determined by the latter's place of residence. If the residence or usual location of the client, and this applies also to non-merchants, is unknown at the time when the claim is filed, or if the client after the contract was concluded, has moved his place of residence, or his usual location, out of the law's jurisdiction, it has been agreed that the head office of the publisher is the place of jurisdiction.
